1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN

Canstar Resources Inc. (the "Company" or "Canstar") was formed by amalgamation on April 5, 2005. The Company's registered and head office is located at 220 Bay Street, Suite 550, Toronto, Ontario, M5J 2W4.

The unaudited condensed interim consolidated financial statements were approved by the Board of Directors on May 26, 2020.

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the carrying values of mineral properties is dependent upon the discovery of economically recoverable reserves, the preservation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain financing necessary to complete development of the properties, and the future profitable production therefrom or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

As at March 31, 2020, the Company had a deficit of $11,524,747 (June 30, 2019 - $11,510,433) and working capital of $19,956 (June 30, 2019 - $42,263). The Company's ability to continue operations and fund its future exploration property expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance:

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of May 26, 2020, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended June 30, 2019, except where noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending June 30, 2020 could result in restatement of these unaudited condensed interim financial statements.

New standards adopted:

(a) Leases and right-of-use assets

In January 2016, the IASB issued IFRS 16 - Leases ("IFRS 16"), replacing IAS 17 - Leases. IFRS 16 provides a single lessee accounting model and requires the lessee to recognize assets and liabilities for all leases on its statement of financial position, providing the reader with greater transparency of an entity's lease obligations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All leases are accounted for by recognising a right-of-use asset and a lease liability except for:

- Leases of low value assets; and
- Leases with a duration of twelve months or less.

Lease liabilities are measured at the present value of the contractual payments due to the lessor over the lease term, with the discount rate determined by the incremental borrowing rate on commencement of the lease is used. Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments are expensed in the period to which they relate.

On initial recognition, the carrying value of the lease liability also includes:

- Amounts expected to be payable under any residual value guarantee;
- The exercise price of any purchase option granted if it is reasonably certain to assess that option;
- Any penalties payable for terminating the lease, if the term of the lease has been estimated on the basis of any termination option being exercised.

Right-of-use assets are initially measured at the amount of the lease liability, reduced for any lease incentives received, and increased for:

- Lease payments made at or before commencement of the lease;
- Initial direct costs incurred; and
- The amount of any provision recognised where the Company is contractually required to dismantle, remove or restore the leased asset.

Lease liabilities, on initial measurement, increase as a result of interest charged at a constant rate on the balance outstanding and are reduced for lease payments made.

Right-of-use assets are amortised on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset if this is judged to be shorter than the lease term.

When the Company revises its estimate of the term of any lease, it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted at the same discount rate that applied on lease commencement. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised. In both cases an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term.

At July 1, 2019, the Company adopted this standard and there was no material impact on the Company's unaudited condensed interim consolidated financial statements.

(b) Uncertainty over Income Tax Treatments

On June 7, 2017, the IASB issued IFRIC Interpretation 23 Uncertainty over Income Tax Treatments. The Interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The Interpretation is applicable for annual periods beginning on or after January 1, 2019. Earlier application is permitted. At July 1, 2019, the Company adopted this standard and there was no material impact on the Company's unaudited condensed interim consolidated financial statements.

3. INVESTMENTS

As at March 31, 2020	Number		Cost		Market Value Adjustment		Fair Value
Angus Ventures Inc. (Note 4(d))	70,000	$	32,200	$	(4,200)	$	28,000

The Company has elected to irrevocably designate its investments as FVTPL. Gains and losses in respect of these investments are recognized in net income or loss, as a net change in unrealized gain or loss on investments, in the condensed interim consolidated statements of loss and comprehensive loss.

Fair value hierarchy

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at March 31, 2020.

		Level 1		Level 2		Level 3		Total

4. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES (CONTINUED)

The Company has interests in exploration properties in the Buchans area of Newfoundland, Canada. Due to disappointing exploration results and a refocus on its Mary March and recently acquired Newfoundland properties, the Kenora properties were written down for accounting purposes in 2018. During the year ended June 30, 2019, the Company wrote off the Exploits, Katie and La Poile projects as management decided not to pursue these property interests. In addition, the Company wrote down the Daniel’s Harbour property and revalued the Slate Bay property to their estimated recoverable amounts during fiscal 2019.

a) Mary March Properties

(i) Glencore Joint Venture

The Company entered into an option and Joint Venture Agreement with Glencore plc ("Glencore") whereby the Company has a 50% interest in the Mary March property located at Buchans Junction in central Newfoundland. The remaining 50% interest in the property is held by Glencore. The Company has a first right of refusal on Glencore’s 50% interest, should they wish to sell. Exploration of the property was held up approximately 10 years due to a title dispute that was resolved in 2012 in the Company’s favour by the Newfoundland and Labrador Supreme Court.

The property consists of four Fee Simple Grants consisting of five separate land parcels and three map-staked licenses containing 77 claims.

Should the Glencore joint venture thus established proceed to production, the Company would make a one-time cash payment of $2 million within six months of the commencement of commercial production. Canstar’s share of production would be subject to a one percent (1%) net smelter return royalty (“NSR”).

The Company is the operator of the Glencore joint venture and has the deciding vote in the event of a deadlock between the Company and Glencore. A diamond drilling program was completed in late 2012. The Company followed this up with a drill program in the fall of 2013. Glencore contributed $150,000 towards the 2012 exploration costs of the joint venture, however did not contribute to subsequent years' exploration expenditures. Glencore was therefore subject to a voluntary reduction due to non-participation of these exploration programs. Canstar now holds a 56% interest in the joint venture and Glencore holds a 44% interest. Glencore did not contribute to the current program and accordingly will be subject to an additional voluntary reduction.

A fourth map-staked license was staked and added to the Mary March Property portfolio in October 2018.

The Company plans to continue exploration on this property.

(ii) Mary March Extension Property

The Mary March Extension Property was acquired on April 7, 2009 and is comprised of 34 claims. The property is located immediately west and north of the Mary March Property.

Canstar holds a 100% interest in the property, which has been written off for accounting purposes.

4. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES (CONTINUED)

(iii) Buchans Property

The Buchans Property was acquired on July 30, 2018 (see Note 6) and is comprised of 1,349 staked claims.

Canstar owns 100% interest in the property through Canstar's wholly owned subsidiary, Adventus Newfoundland Corporation ("Adventus NFLD"), subject to a 2% NSR royalty. In consideration for the acquisition of Adventus NFLD, the Company issued 17,336,339 common shares valued at $0.30.

b) Kenora Properties

On March 2, 2014, the Company entered into an option agreement to acquire several properties in the Kenora, Ontario area, collectively called the Kenora Gold Project. The Kenora Gold Project is situated in the Wabigoon sub-province, and located approximately 20 kilometres east of the Town of Kenora.

Canstar acquired a 100% interest in the Kenora Gold Project by making cash payments of $18,200 and issuing 200,000 common shares (valued at $8,000). The Kenora Gold Project is subject to a 3% NSR, subject to a buy-back right of $1,000,000 for the first 1.5% and $3,000,000 for the remaining 1.5%, which would reduce the NSR to 0%.

Due to disappointing exploration results and management's decision to refocus on the Mary March property during the year ended June 30, 2018, management decided to write the Kenora property down to $20,000, its estimate of the recoverable amount. During the period ended March 31, 2020, the property was sold for $20,000 to a third party.

c) Exploits Property

On April 5, 2018, the Company entered into an option agreement with local prospectors to purchase 90 mineral claims near Red Indian Lake in the Province of Newfoundland and Labrador.

In consideration for entering into the option agreement, the Company paid the optionees $10,000 in cash and issued to the optionees the equivalent of $5,000 in Canstar common shares. Assuming the completion of subsequent payments totaling $30,000 to the optionees in cash and the equivalent of $30,000 to be paid in common shares by the third anniversary of the entering into the option agreement, Canstar will own a 100% interest in the mineral claims subject to a 1% royalty interest retained by the optionees. The securities issued to the optionees will be subject to a four month and one day statutory hold period.

All payments and share issuances to the optionors of the Exploits property required as at March 31, 2020 have been made. Subsequent payments and share issuances required to be made to keep the option in good standing will become due on April 5, 2019 and April 5, 2020. Upon completion of these payments and share issuances, Canstar would acquire a 100% interest in the optioned property.

During the year ended June 30, 2019, the Company terminated the Exploits option agreement and accordingly the property was written off.

4. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES (CONTINUED)

d) Slate Bay Properties

The Slate Bay Properties are comprised of eight contiguous patented claims located approximately 10 kilometres north of the town of Red Lake, Ontario. The Company earned a 75% interest in the property pursuant to an option and joint venture participation agreement entered into with Luxor Enterprises Inc. (“Luxor”) on February 4, 2002.

The Company has attempted to joint venture this property without success. Accordingly, the property was written off in fiscal 2011 although the Company still retains its interest.

During the year period ended March 31, 2020, the Company entered into a definitive agreement with Angus Ventures Inc. ("Angus"), whereby it agreed to sell its 75% interest to Angus for consideration of $30,000 and 70,000 common shares of Angus (valued at $32,200). Accordingly, a gain on the sale of the property was recorded in the period.

e) Daniel's Harbour Properties

The Daniel's Harbour Properties consist of 243 claims located in coastal Western Newfoundland. The Company acquired the Daniel's Harbour Properties on July 30, 2018 from Altius Minerals Ltd. ("Altius").

In consideration for the acquisition of 100% ownership subject to a 2% NSR, the Company issued 2,419,024 common shares valued at $0.30 per common share.

During the year ended June 30, 2019, the Company reduced the number of claims held on the property and accordingly wrote down the property to $200,000 which is the Company's estimate of the property's recoverable amount in a fair value less costs of disposal approach.

f) Katie Project

The Katie Project is located in central Newfoundland and consists of 103 claims in 1 mineral license. The Company holds a 100% interest in the Katie Project subject to a 2% NSR royalty payable to Altius (see Note 6).

During the year ended June 30, 2019, the Company decided not to pursue the property, and accordingly the property was written off.

g) La Poile Project

The La Poile Project is located in southwestern Newfoundland and consists of 28 claims in 2 mineral licenses. The Company holds a 100% interest in the Katie Project subject to a 2% NSR royalty payable to Altius (see Note 6).

During the year ended June 30, 2019, the Company decided not to pursue the property and accordingly the property was written off.

6. ACQUISITION OF ADVENTUS NEWFOUNDLAND CORPORATION

During the year ended June 30, 2019, the Company purchased 100% of the issued and outstanding shares of Adventus NFLD from Adventus Zinc Corporation ("Adventus"). Adventus NFLD holds 100% ownership of the Buchans Property (Note 4(a)(iii)), the Katie Project (Note 4(f)), and La Poile Project (Note 4(g)). For accounting purposes, the acquisition of Adventus NFLD was recorded as an asset acquisition as Adventus NFLD is not considered to be a business when applying the guidance within IFRS 3.

The allocation of the purchase price is as follows:

Purchase price allocation		
Issuance of common shares (i)	$	5,200,902
Transaction costs		95,789
	$	5,296,691

(i) For the purpose of determining the value of the purchase price allocation, the 17,336,339 common shares were valued at $0.30 which is based on the trading price at the time of issue.

7. CAPITAL STOCK, OPTIONS AND WARRANTS (CONTINUED)

(b) Issued (Continued)

(i) On April 17, 2018, the Company completed a non-brokered private placement for aggregate gross proceeds of $1,500,021 ("Offering"). The Offering consisted of the sale of 1,666,739 common share subscription receipts ("Common Share Receipts") at a price of $0.30 per Common Share Receipt and 2,500,000 flow through subscription receipts ("Flow Through Receipts") at a price of $0.40 per Flow Through Receipt (together, the "Subscription Receipts").

On July 30, 2018, upon satisfaction of the Escrow Release Conditions (as defined below), each Common Share Receipt was exchanged for one common share of Canstar. Each Flow Through Receipt was exchanged for one flow through share of Canstar within the meaning of the Income Tax Act (Canada). The gross proceeds of the Offering less offering costs were released from escrow upon the satisfaction of the following conditions (together, the "Escrow Release Conditions"): (i) the execution of the definitive share exchange agreement among the Company, Adventus, Adventus NLFD, and Altius Resources Inc.; (ii) the execution of the definitive asset purchase agreement between the Company and Altius Resources Inc.; (iii) the completion or irrevocable waiver or satisfaction of all conditions precedent to the Company's acquisition of Adventus NFLD (see Note 4(a)(iii)) and the Daniel's Harbour property (see Note 4(e)); (iv) the receipt of all required shareholder, third party (as applicable) and regulatory approvals including, without limitation, the conditional approval of the TSX Venture Exchange ("TSX-V") for the Transaction and the Offering; and (v) the Company having delivered a Release Notice confirming that the conditions set forth above have been met or waived (the "Release Notice").

In connection with the Offering, the Company paid finders a cash commission of $52,806 equal to 6% of the aggregate gross proceeds raised by finders. A total of 150,840 broker warrants (“Broker Warrants”) equal to 6% of subscription receipts raised was paid to finders. Each Broker Warrant entitles the holder to purchase one common share at a price of $0.30 until the date which is twenty-four (24) months following the closing date of the Offering, whereupon the Broker Warrants will expire. A grant date fair value of $33,313 was estimated using the Black-Scholes option pricing model based on the following weighted average assumptions: expected dividend yield of 0%; risk free interest rate of 1.88%; expected life of 2 years; and an expected volatility of 156% based on the Company’s historical trading data. The Company also incurred cash share issuance cost of $98,271 in connection with the Offering.

The premium paid by investors for the Flow Through Receipts was calculated as $0.10 per Flow Through Receipt. Accordingly, $250,000 was recorded as a flow-through premium liability. As of December 31, 2019 the Company had not incurred the minimum qualifying expenditure requirements; the remaining flow-through liability of $7,443 has been recorded as a reduction of the flow-through liability in the comprehensive statement of loss. In addition, as a result of the qualifying expenditure shortfall the Company recorded a Part XII.6 penalty of $5,739 in the statement of operations.

(ii) On February 14, 2020, the Company completed a private placement consisting of the sale of 4,200,000 common shares at $0.05 per share for gross proceeds of $210,000. In connection with the private placement, certain directors, officers and other related persons acquired a total of 3,500,000 common shares.

(c) Stock Options

The Company has granted options for the purchase of common shares to its directors, officers, and consultants. The aggregate number of common shares which may be issued under the stock option plan is 3,000,000. The options are non-assignable and may be granted for a term not exceeding five years. The exercise price of the options is fixed by the Board of Directors of the Company at the time of grant at the market price of the common shares, subject to all applicable regulatory requirements.

9. COMMITMENTS AND CONTINGENCIES

Environmental Contingencies

The Company's mineral exploration activities are subject to various federal and provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

Flow-Through Commitment

Pursuant to the terms of the flow-through share agreements, the Company needs to comply with its flow-through contractual obligations with subscribers with respect to the Income Tax Act (Canada) by incurring qualified exploration expenditures before December 31, of the year following the year in which the agreement is entered into. The Company indemnifies the subscribers of current and previous flow-through share offerings against any tax related amounts that become payable by the shareholder as a result of the Company not meeting its expenditure commitments.

10. SUBSEQUENT EVENT

Since December 31, 2019, the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19”, has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition in future periods. The Company is closely monitoring the business environment as a result to ensure minimal disruption to business operations.

Subsequent to March 31, 2019 150,840 warrants expired unexercsied.
