The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

a) Golden Baie Property

The Golden Baie Property is comprised of mineral exploration licenses located in south-central Newfoundland. On August 26, 2020, the Company signed a binding letter agreement with Altius Resources Inc. ("Altius"), a wholly owned subsidiary of Altius Minerals Corporation, and other arm's length parties for the option to acquire a 100% interest in mineral claims.

On November 18, 2020, the Company closed an option agreement with Altius and other arm's length parties (collectively, the "Optionors"). Under the Option agreement, the Company can earn a 100% undivided interest in the Golden Baie claims over a four year period for the following considerations:

- Issuance of 4,000,000 common shares (issued and valued at \$1,120,000) of the Company to Altius upon receipt of TSX Venture Exchange's approval. These were issued in November 2020;
- Aggregate cash payment of \$50,000 (paid) and issuance of an aggregate of 2,000,000 common shares (issued and valued at \$560,000) to the Optionors upon signing of the definitive agreements (the "Definitive Agreements"). This payment and the shares were issued in November 2020;
- Issuance of 2,000,000 common shares to Altius on the first anniversary of the signing of the Definitive Agreements. The shares were issued in December 2021.
- Payment of an aggregate cash payment of \$50,000 and issuance of an aggregate of 1,000,000 common shares to the Optionors on the first anniversary of the Definitive Agreements. The cash payment was made and the common shares were issued in December 2021.
- Issuance of 2,500,000 common shares to Altius on the second anniversary of the Definitive Agreements. These have been reflected as shares to be issued and valued at \$200,000 as at November 18, 2022.
- Payment of an aggregate cash payment of \$50,000 and issuance of an aggregate of the lesser of \$250,000 worth of common shares or 1,000,000 common shares to the Optionors on the second anniversary of the Definitive Agreements. This payment and the shares were issued in October 2022. Refer to Note 7(b)(iv).
- Payment of an aggregate cash payment of \$100,000 and issuance of an aggregate of the lesser of \$250,000 worth of common shares or 1,000,000 common shares to the Optionors on the third anniversary of the Definitive Agreements.

As further consideration for the option, Canstar is required to commit to fund exploration expenditures of a minimum of \$1,250,000 (incurred) over a four-year period. The minimum expenditure commitment for the first year will be \$500,000. In addition, the Optionors will be entitled to an aggregate milestone payment of \$1,000,000 by the Company to the Optionors upon the Golden Baie Project claims achieving National Instrument 43-101 defined measured and indicated mineral resources of at least one million contained gold ounces.

The Optionors will transfer title to the Golden Baie Claims to Canstar subject to the Optionors retaining a 2.0% Net Smelter Return ("NSR") from all commercial production on the Golden Baie Project (the "Royalty"). Altius shall maintain the right to purchase from the Optionors 1% of the NSR for the total sum of \$1,500,000. Altius will also have a first right of refusal on the purchase of the remaining 1% NSR.

5. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES
(CONTINUED)

a) Golden Baie Property (continued)

On September 25, 2020, the Company entered into an option agreement with Altius and other arm's length parties (collectively, the "Optionors") to acquire a 100% interest in 41 mineral claims contiguous with the Golden Baie Project, subject to a 1.5% NSR. In consideration for the acquisition of the option, Canstar shall, among other things: (i) issue an aggregate number of common shares, payable in installments, as is equal to \$75,000 divided by the greater of \$0.225 and the 5-day volume weighted average price per share; and (ii) pay an aggregate of \$75,000 in cash, payable in installments, over a three-year period. Altius has the right to purchase at any time, from the Optionors, one third of the NSR (namely, a 0.5% NSR) for the total sum of \$1,000,000. In addition, Altius has the right of first refusal on any sale by the Optionors of the remaining two thirds of the NSR.

So long as Altius owns 9.9% of the Company's shares outstanding it shall have the right to participate in 19.9% of any equity financing during the term of the option.

During the years ended June 30, 2021 and 2022, the Company put up security bonds to keep certain Golden Baie claims in good standing. Once the required expenditures have been achieved, the bonds will be returned to the Company.

Pursuant to the option agreement dated November 18, 2020, the Company issued 3,000,000 common shares to other arm's length parties at a weighted average value of \$0.28 per share based on the quoted price of the shares at the time of issue, during the year ended June 30, 2022.

Pursuant to the option agreement dated November 25, 2020, the Company issued 51,055 common shares to other arm's length parties at a value of \$0.29 per share based on the quoted price of the shares at the time of issue, during the year ended June 30, 2022.

On January 24, 2022, the Company entered into a binding property purchase agreement with Altius to acquire a 100% interest in the Hermitage Property in southern Newfoundland, subject to a 2% NSR, for consideration of the issuance of 500,000 common shares of the Company. The shares were issued and valued at \$137,500 based on the quoted price of the shares at the time of issue. The Hermitage Property is contiguous with the Company's Golden Baie project.

On July 5, 2022 the Company acquired four claims, located along the Little River Trend, from an arm's length third party in exchange for a nominal cash payment and a 2% NSR.

On August 15, 2022, the Company completed a property purchase agreement with four individuals ("the vendors"), in which the vendors transferred 100% of their beneficial interest in the Bernards Pond and Roti Bay claims, subject to the retention by the vendors of a 2.0% NSR from all commercial production on the Bernards pond claims and Roti Bay claims ("the Royalty"). The vendors transferred to the Company their beneficial interest in the Bernards Pond and Roti Bay claims, in consideration for the issuance of 250,000 common shares (issued and valued at \$30,000 based on the quoted share price of \$0.12 at the time of issuance) of the Company and payment of an aggregate of \$30,920 for reimbursement of certain fees incurred by them. (i) Glencore Joint Venture

The Company entered into an option and Joint Venture Agreement with Glencore plc ("Glencore") whereby the Company had earned a 50% interest in the Mary March property located at Buchans Junction in central Newfoundland. The remaining 50% interest in the property was held by Glencore. The Company has a first right of refusal on Glencore's 50% interest, should they wish to sell. Exploration of the property was held up approximately 10 years due to a title dispute that was resolved in 2012 in the Company's favour by the Newfoundland and Labrador Supreme Court.

The property consists of four Fee Simple Grants consisting of five separate land parcels and two map-staked licenses.

Should the Glencore joint venture thus established proceed to production, the Company would make a one-time cash payment of \$2 million within six months of the commencement of commercial production.

Canstar's share of production would be subject to a one percent (1%) net smelter return royalty ("NSR").

The Company is the operator of the Glencore joint venture and has the deciding vote in the event of a deadlock between the Company and Glencore. A diamond drilling program was completed in late 2012. The Company followed this up with a drill program in the fall of 2013. Glencore contributed \$150,000 towards the 2012 exploration costs of the joint venture, however did not contribute to subsequent years' exploration expenditures. Glencore was therefore subject to a voluntary reduction due to non-participation of these exploration programs. Canstar now holds a 56% interest in the joint venture and Glencore holds a 44% interest. Glencore did not make further contributions and accordingly may be subject to additional voluntary reductions.

During the year ended June 30, 2022, an impairment of \$4,887,465 and \$2,846,420 respectively, on the property acquisition cost and deferred exploration cost was recorded as management had no exploration plans for the property.

(ii) Mary March Extension Property

The Mary March Extension Property was acquired on April 7, 2009. The property is located immediately west and north of the Mary March Property.

Canstar holds a 100% interest in the property, which has been written off for accounting purposes.

During the year ended June 30, 2022, Buchans-Mary March Properties were impaired. See Note 5(b)(i).

(iii) Buchans Property

The Buchans Property was acquired on July 30, 2018.

Canstar owns a 100% interest in the property, subject to a 2% NSR royalty.

During the year ended June 30, 2022, Buchans-Mary March Properties were impaired. See Note 5(b)(i).

9. COMMITMENTS AND CONTINGENCIES

Environmental Contingencies

The Company's mineral exploration activities are subject to various federal and provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

COVID-19

The outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Supply chain disruption, in addition to the higher energy prices associated with the war in Ukraine, have resulted in inflationary pressure. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition in future periods. The Company is closely monitoring the business environment as a result to ensure minimal disruption to business operations.

Flow-Through Commitment

Pursuant to the terms of the flow-through share agreements, the Company needs to comply with its flow-through contractual obligations to subscribers with respect to the Income Tax Act (Canada) requirements for flow-through shares. The Company was committed to incur flow-through eligible expenditures of \$5,212,342 in Canadian Exploration Expenditures (as such term is defined in the Income Tax Act (Canada)) by December 31, 2022 arising from flow-through offerings, of which \$5,212,342 has been incurred to December 31, 2022 with a \$nil balance to be spent.
