CANSTAR RESOURCES INC.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
(EXPRESSED IN CANADIAN DOLLARS)
(UNAUDITED)
NINE MONTHS ENDED MARCH 31, 2018

1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN

Canstar Resources Inc. (the "Company" or "Canstar") was formed by amalgamation on April 5, 2005. The Company's registered and head office is located at 56 Temperance Street, Suite 1000, Toronto, Ontario M5H 3V5.

The unaudited condensed interim financial statements were approved by the Board of Directors on May 29, 2018.

The Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the carrying values of mineral properties is dependent upon the discovery of economically recoverable reserves, the preservation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain financing necessary to complete development of the properties, and the future profitable production therefrom or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

As at March 31, 2018, the Company had a deficit of \$8,958,365 and working capital of \$27,257. The Company's ability to continue operations and fund its future exploration property expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future (see Note 9). These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

Definitive Agreement - Adventus Zinc Corporation and Altius Minerals Limited

As more fully outlined in the February 21, 2018 press release, the Company, Adventus Zinc Corporation ("Adventus") (TSX-V: ADZN) and Altius Minerals Limited ("Altius") (TSX: ALS) have entered into a three-way definitive agreement (the "Transaction") dated February 20, 2018 whereby the Company will acquire the Newfoundland base metal exploration assets of Adventus and the Daniel's Harbour Zinc Project from Altius in exchange for: (i) the issuance of common shares of the Company to Adventus and Altius; and (ii) a funding commitment from Altius of \$500,000 as part of a \$750,000 private placement. The financing will consist of the sale of 4,166,667 common shares issued at \$0.06 per share on a hard dollar basis for gross proceeds of \$250,000, and 6,250,000 common shares issued on a flow-through basis at \$0.08 per share for gross proceeds of \$500,000. Altius is subscribing for the flow-through shares for a total investment of \$500,000 and will have pro-rata equity participation rights going forward. Altius will also receive a right of first refusal on any future royalty and/or streaming financing related to the Mary March property.

Under the Transaction, the Company will issue 86.7 million shares to Adventus for its portfolio of assets and Altius will receive 12.1 million shares for its Daniel's Harbour Zinc Project. Upon closing, including completion of the private placement, the current shareholders of the Company will own approximately 49% of the consolidated company, while Adventus and Altius will own approximately 40% and 9%, respectively, and other investors in the private placement will own 2%. Following completion of the Transaction, the Company will use commercially reasonable efforts to complete a minimum \$2,000,000 flow-through private placement financing.

Upon completion of the Transaction, the Board of Directors of the Company will initially be comprised of four members, with three members appointed by the Company and one member appointed by Adventus (and Adventus retaining the right to appoint a second member at a later date).

NINE MONTHS ENDED MARCH 31, 2018

1. NATURE AND CONTINUANCE OF OPERATIONS (CONTINUED)

Definitive Agreement - Adventus Zinc Corporation and Altius Minerals Limited (Continued)

The Transaction will be subject to TSX Venture Exchange approval for both the Company and Adventus. The Company is arm's length to both Adventus and Altius. Adventus and Altius are "non-arm's length parties" as Altius is an "insider" of Adventus as such term is defined under securities laws. The Company will require shareholder approval pursuant to the policies of the TSX Venture Exchange as Adventus will become a "control person" of the Company on closing. The Transaction is also subject to satisfaction of certain other closing conditions customary in transactions of this nature. Directors and officers of the Company, representing 6.2% of the Company's common shares, have entered into voting support agreements with Adventus and Altius, pursuant to which they will vote their common shares in favour of the Transaction. It is also anticipated, assuming the Transaction is approved, that the Company will complete a 5 for 1 share consolidation and all shares will be issued on a post-consolidated basis. As a result, upon completion of the Transaction, there will be issued and outstanding approximately 212,025,189 shares on a pre-consolidation basis and 42,405,038 shares on a post-consolidation basis. The effective price of the private placement will be \$0.30 per hard dollar common share and \$0.40 per flow-through common share.

The Transaction will allow the Company to consolidate the majority of the Buchans Camp and adds three high quality Newfoundland zinc exploration projects to the Company's portfolio. Upon closing of the Transaction, the Company's Newfoundland exploration team will initiate a comprehensive 2018 exploration program focused on the Buchans Camp, with a minimum 3,000m of diamond drilling campaign anticipated in 2018 to be completed in phases.

Full details of the Transaction will be included in the management information circular of the Company to be mailed to its shareholders and posted on www.sedar.com. It is anticipated that the meeting of the Company's shareholders and the closing will take place by July 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance:

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim financial statements are based on IFRSs issued and outstanding as of May 29, 2018, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended June 30, 2017, except where noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending June 30, 2018 could result in restatement of these unaudited condensed interim financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New IFRS standards not yet adopted:

The Company has not yet adopted certain new IFRS standards, amendments and interpretations to existing standards, which have been published but are only effective for its annual periods beginning on or after July 1, 2018.

IFRS 9 – Financial Instruments (“IFRS 9”) was issued by the IASB in November 2009 with additions in October 2010 and May 2013 and will replace IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9, except that an entity choosing to measure a financial liability at fair value will present the portion of any change in its fair value due to changes in the entity’s own credit risk in other comprehensive income, rather than within profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 3. IFRS 9 is effective for annual periods beginning on or after January 1, 2018.

3. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES

The Company has interests in exploration properties in the Kenora Townships in Ontario, Canada, and the Buchans area of Newfoundland, Canada. Due to disappointing exploration results and/or lack of a current exploration plan or recent work, the Slate Bay property has been written off for accounting purposes.

a) Mary March Properties

(i) Glencore Joint Venture

The Company entered into an option and Joint Venture Agreement with Glencore plc (“Glencore”) whereby the Company has a 50% interest in the Mary March property located at Buchans Junction in central Newfoundland. The remaining 50% interest in the property is held by Glencore. The Company has a first right of refusal on Glencore’s 50% interest, should they wish to sell. Exploration of the property was held up approximately 10 years due to a title dispute that was resolved in 2012 in the Company’s favour by the Newfoundland and Labrador Supreme Court.

The property consists of 92 staked claims, 5 licenses, 1 lease and 2 patented lots.

Should the Glencore joint venture thus established proceed to production, the Company would make a one-time cash payment of \$2 million within six months of the commencement of commercial production. Canstar’s share of production would be subject to a one percent (1%) net smelter return royalty (“NSR”).

The Company is the operator of the Glencore joint venture and has the deciding vote in the event of a deadlock between the Company and Glencore. A diamond drilling program was completed in late 2012. The Company followed this up with a drill program in the fall of 2013. Glencore contributed \$150,000 towards the 2012 exploration costs of the joint venture but did not contribute to the 2013, 2014 and 2015 exploration expenditures. Glencore was therefore subject to a voluntary reduction due to non-participation of these exploration programs. Canstar now holds a 56% interest in the joint venture and Glencore holds a 44% interest.

3. INTEREST IN EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES
(CONTINUED)

a) Mary March Properties (continued)

(ii) Mary March Extension Property

The Mary March Extension Property was acquired on April 7, 2009 and is comprised of 34 claims. The property is located immediately west and north of the Mary March Property.

Canstar holds a 100% interest in the property, which has been written off for accounting purposes.

b) Kenora Properties

On March 2, 2014, the Company entered into an option agreement to acquire several properties in the Kenora, Ontario area, collectively called the Kenora Gold Project. The Kenora Gold Project is situated in the Wabigoon sub-province, and located approximately 20 kilometres east of the Town of Kenora.

Canstar acquired a 100% interest in the Kenora Gold Project by making cash payments of \$18,200 and issuing 200,000 common shares (valued at \$8,000). The Kenora Gold Project is subject to a 3% NSR, subject to a buy-back right of \$1,000,000 for the first 1.5% and \$3,000,000 for the remaining 1.5%, which would reduce the NSR to 0%.

c) Slate Bay Property

The Slate Bay Property is comprised of eight contiguous patented claims located approximately 10 kilometres north of the town of Red Lake, Ontario. The Company earned a 75% interest in the property pursuant to an option and joint venture participation agreement entered into with Luxor Enterprises Inc. ("Luxor") on February 4, 2002.

The Company has attempted to joint venture this property without success. Accordingly, the property has been written off although the Company still retains its interest.
